

Who was *George Washington Carver*?

Which state grows the most peanuts?

True or false: Peanuts probably originated in South America.

Are peanuts a nut or a legume?

How much of the world's peanut crop is used in candy?

What can people make from peanut shells?

When did peanuts become popular at circuses?

How many peanuts does it take to make a 12-oz jar of peanut butter?

A scientist who discovered
hundreds of uses for
peanut products.

Georgia. It grew 3 billion
lbs. in 2020 -- over 50% of
the U.S.' crop

True! Archaeologists have
found them in Peru and
Brazil.

A legume, because they
grow in pods underground.
But they're treated like
nuts when cooking.

About 20%

Paper, cat litter, fireplace
logs, and many other
products!

In the late 1800s, thanks
to P.T. Barnum's circus.

About 540 peanuts.
